City Seeking Citizen Input On-Line for Street Improvement Program

New Braunfels, TX - The City of New Braunfels invites citizens to provide input on the FY 2017-2018 street improvement program, through an on-line survey, now through May 14th.

“We encouraged our citizens to collaborate and participate in decisions,” said Public Works Director Greg Malatek. “Therefore, we are asking our residents to provide input by identifying roadways they feel should be evaluated for potential inclusion in the City’s street improvement program.”

A public input meeting was held on May 4th, at New Braunfels City Hall, to provide citizens with information on the program and to take their comments. The City has developed the on-line survey to provide those who were unable to attend the meeting with an opportunity to express their opinions. Those interested in identifying streets for evaluation can visit <https://www.surveymonkey.com/r/2018Streets>.

“This is a user-friendly method that allows everyone to pinpoint problem locations,” Mr. Malatek said. “We encourage everyone to provide their input and assist us in developing our recommendations - for consideration by City Council - for roadways to be addressed in the FY 2017-2018 street improvement program.”
