

Citywide Street Improvements

Project Description

This program increases the life span of streets by restoring existing pavements to excellent condition without reconstructing the entire street. This project allocates \$10 million over the course of five years towards improving streets that need more than regular maintenance and less than a complete reconstruction. Citywide, approximately 89 lane miles of streets requiring repair have been documented. This project will allow for a portion of the streets identified throughout the city as needing repair to be addressed, therefore avoiding complete reconstruction of those streets. Final determinations on streets selected for this project are made by City Council.

Street	Segment	Begin Design & Engineering	Begin Construction Phase	Estimated Completion
Common St.	Loop 337—Gruene Rd.	2013	2013	2014
Walnut Ave.	Rolling Path—County Line Rd.	2013	2013	Completed
Post Rd.	Sagebrook Dr.—IH 35	2013	2013	2014
Wald Rd.	Landa St.—City Limit	2013	2013	2014
Saur Ln.	Barbarosa Rd.—Westmeyer Rd.	2013	2013	2014
