

# NEW BRAUNFELS 2013 BOND PROGRAM

# Wood Road/Landa Street Drainage PR Improvements Preliminary Design

## **Project Description**

This project provides preliminary design for a potentially phased project to reduce flooding in the areas of Wood Road, Landa Street and adjacent streets. Options for future improvements will be determined as part of the preliminary design.

Begin Design & Engineering	Begin Construction Phase	Estimated Completion
2013	Not Applicable	2018
