District 5 Citizen Forum on Long Term Water Planning Set

New Braunfels, TX - New Braunfels City Councilman Wayne Peters will host his third District 5 Citizen Forum at the New Braunfels Civic/Convention Center, 375 S. Castell Avenue, on Tuesday, May 12th at 6:00 p.m.

The program will feature a presentation from New Braunfels Utilities CEO Paula DiFonzo on managing the water supply through long term planning and conservation. City Manager Robert Camareno will also be on hand to answer questions.

“This meeting is open to District 5 residents, as well as any other interested citizens wanting to hear more on this important topic,” Councilman Peters said. “This is a great opportunity for residents to learn about our long term water supply strategy.”

“We also want to hear from District 5 residents regards any other issues or concerns they may have and invite all city residents to come and ask their questions as well,” the Councilman noted.
