Public Input Meeting on Street Projects Scheduled for October 27th

New Braunfels, TX - The City of New Braunfels will host the second annual informational presentation and public input meeting on Street Projects at the New Braunfels Civic/Convention Center, 375 S. Castell Avenue, at 6:00 p.m. on Tuesday, October 27th.

The program will feature information about currently proposed street maintenance projects, the 2013 Bond Program street projects, and the process used to identify areas for future improvements. During the second portion of the meeting, citizens will be asked to provide their input with specific identification of roadways they feel should be evaluated as part of the planning process.

“Capital Programs, Public Works and City Administration staff will be available to assist with the data collection process and to answer questions concerning the various types of road maintenance employed in the overall program,” said City Manager Robert Camareno. “We encourage residents to take advantage of this opportunity to find out more about how priorities for street maintenance are developed and to share their opinions.”
