Landa Park Golf Course at Comal Springs Celebrates a Successful First Year

New Braunfels, TX - After undergoing a complete, \$6.9 million dollar renovation, Landa Park Golf Course at Comal Springs reopened its doors in October of last year, and is now celebrating a successful one-year mark.

"We have made a lot of improvements here and are excited to offer such a great product to our patrons," said Chad Donegan, PGA Head Golf Professional for Landa Park Golf Course.

Those improvements include all new tee and green complexes, fairway contouring for better playability and drainage, 216 new trees, 75 acres of new grass, 36 new bunkers and four new water features. The expanded practice area now features a 10,000 square-foot green with an added bunker to allow for putting, pitching/chipping and bunker work. A new cart fleet compliments the new cart paths, while two new restrooms, which also act as pump houses for the golf course, were placed on each side of the course. A new irrigation system was installed throughout the course, while added bio-swales, riparian buffers and native grassed areas aid in the overall conservation of the environment.

Along with the course revamp, the clubhouse also got a facelift and was enlarged to 5,500 square feet to include more room for a full-line Pro Shop - stocked with all of the latest golf brands - a full service Sports Bar and Grill, Pavlock's Fairway Grill, and a room which can be utilized as a meeting or events venue.

"After our renovation, the golf course has experienced a record number of tournaments and outings," said Donegan. "In addition to use of the meeting facility, golf course staff is on hand to assist with tournament set up and scoring, while Pavlock's Fairway Grill can cater to just about any type of event."

Enhanced Player Card Memberships offer discounts and added benefits to player card holders, and are available to New Braunfels residents free of charge.

"We are excited to offer new and improved opportunities for our patrons to have fun out on the course, shop in our full-line Pro Shop, eat good food, and save some money in the process," Donegan said.
