Note: This is a high frequency report and designed as a visual assessment of the play area, play equipment, and play surfacing. Frequently used playgrounds may require a more detailed report by a staff member experienced in repair and playground inspection. Always consult manufacturer's maintenance instructions for inspection schedules and replacement parts. "Maintenance schedules should be developed based upon actual or anticipated playground use" (CPSC). Retain all inspection reports to assist in developing comprehensive maintenance programs, inspection schedules, and for future budgeting and planning.
