11b. PRINTED NAME AND TITLE			11c. DATE		11/30/2022		
Barbara Coleman Purchasing Manager					Date		

13. I understand RAP is not allowed in the TY D hot mix design. Can a TxDot approved TY B design with Rap be used in the TY B PG64-22 hot mix item. This item is being used for full depth flex base repair at two locations per the plans.
We are ok with RAP in the Type B black base.
14. After close inspection of the subject roadway, it appears on the numerous sections there is obvious distress with rutting and heaving that a 3" mill and fill will clearly not address.
Contrary, the reconstruction section (2+00 – 10+26) does have areas that should be addressed, but it appears portions of pavement are in better condition than other sections further east.
What was the methodology utilized to address the pavement rehabilitation?
For bidding purposes, the contractor shall bid as indicated in the bidding documents. The City will evaluate any proposed modifications after an executed contract is in place.
15. This is a suburban roadway with subdivisions and schools adjacent, why is there a one course surface treatment on the surface course?
For bidding purposes, the contractor shall bid as indicated in the bidding documents. The City will evaluate any proposed modifications after an executed contract is in place.
16. What are the work hours outside of the school zones as cited in the plans?
Outside of School Zone, hours are 8-5.
17. There is a sequence on page 7 of plans. If the contractor adheres to Plan sequence, utilizing MUTCD requirements will this suffice be ample for TCP?
Yes. This will suffice as a submitted traffic control plan. Any changes/deviations from this phasing plan on Page 7, will need to be reflected in a resubmitted TCP.
18. Is there a max lift thickness for Base and HMA?
Please see TXDOT Item 247 (Flexible Base) and TXDOT Item 341 (Dense-Graded Hot-Mix Asphalt) for maximum lift thicknesses.
19. Several schools in area. Is contractor going to be restricted to 9AM to 2PM work hours?
Yes, contractor will be restricted to these hours in the school zone/school area. Will be coordinating with the school and City Inspector and Project Manager.
20. Is seal coat going to be placed on top of TYD SACB 70-22 surface mix?
Please see sheets 26-27 of the plans for Typical Sections.
21. What are asphalt and aggregate rates for asphalt and aggregate for seal coat?
The Binder rate shall be 0.36 gal/SY and the aggregate spread rate shall be 144 SY/CY for the Seal Coat.

22. Mill item is for 3" – 4"; typ shows mill 3" place 3"; existing says 4" HMA. Will there be 1" +/- HMA left in place after mill or does all HMA get removed?
Contractor shall mill 3" where designated in the plans, utilizing full depth milling in areas that require additional corrective measures as defined in the plans.
23. Will any allowance (bid item) be added to hire police to help in traffic control due to schools in vicinity?
A bid item will not be added. Contractors Base Bid Item 21 (Barricades, Signs, and Traffic Handling) shall be inclusive of all traffic control items within the Contractor's TCP plan. Additional items shall be at Contractor's expense.
24. Can we obtain CAD files from the Engineer for this project that includes Line work, existing and proposed contours? Our use is specifically for area and volume quantity take-off. If required we will sign disclaimers, prior to receiving.
After contract is awarded CAD files will be made available to the awarded contractor.
25. Bid item 33 Work Zone Pavement Markings is a LS item. I cannot find what is being required in the plans in order to quantify. Can more information be provided for this LS bid item?
This item is intended to include the necessary pavement markings to support the contractor submitted traffic control plan.
